

My comment is about sex on television. Couldn't find a category for that. I'm tired of all the raunchy stuff and half nude (pornography) on regular channels as well as TV adds. Have any of you watched the Spike, channel 30 station? We can't always just turn off the TV when a commercial comes on!!!! How about a class action suit against sexual harassment. Pornography keeps coming into my home without my consent. It is very offensive to me!!! Most of my family and friends feel the same, but it seems no one is listening.....
